Senior Supervisor,  
Chief Supervisor - Portfolio Manager,  
Head of Portfolio Management,  
Director of the Banking Supervision Department  
From/to: October 2003- present

***Description of work experience:***

Over the course of 15 years of working experience in the Central Bank of Montenegro, I accomplished all tasks of onsite and offsite supervision falling within the scope of the job positions that I covered, including some of the most complex tasks performed in the Banking Supervision Department. Extensive work experience, courses, trainings and coaching sessions that I attended have enabled me to acquire a broad knowledge related to the tasks of onsite and offsite supervision, local regulations and international standards, as well as good banking practices. The managerial positions that I have covered have given me the opportunity to improve my managerial skills, including setting goals and priorities, effectively delegating tasks and duties, motivating employees, contributing to improvement of the team spirit, as well as other skills necessary for a successful team management and being an effective leader to those responsible for banking supervision processes as the necessary precondition for preserving financial stability.

**Trainings/ courses:**

---

I have attended numerous courses and trainings on continuous basis and this allowed me to expand and deepen my knowledge. These included training as well as participation in onsite supervision of a commercial bank in the United States of America (Century Bank of Georgia), together with FDIC controllers.

**Licenses and memberships of professional and working bodies:**

- Certificate for investment manager and broker
- Member of the working group for the EU negotiation chapter 9 - Financial services

**Additional information:**

Working on my master's thesis at the University of Economics, University of Montenegro.
